

NORA Sit-to-Stand Lift

Light Flexible Standing Aid for Daily Care

Providing a High Quality of Life for Your Residents

NORA is designed to assist residents who can stand for short periods of time but require a safe and comfortable transfer to and from bathing or toileting. For shorter residents NORA offers additional attachment points for slings so residents can stand upright independent of their height, the flexible knee pads can also be adjusted to suit height requirements. Residents can also boost circulation and rehabilitate with NORA; the targeted safe raising system allows residents to slowly put their full vertical load onto their legs improving musculoskeletal systems.

All electrical components are splash water resistance.

Battery and charger are backwards compatible across all Handicare by Beka mobile lifts.

Caregiver and Resident Benefits

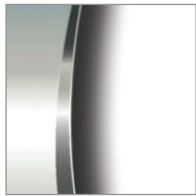

The ergonomic handles allow for an optimum holding position for steering.

Two sling attachment points for different patient heights.

Cable remote control with display of the charging condition of the battery, failure diagnostics, service.

Light construction. Carrier frame, lifting column and add-on components made of 100% aluminum.

Adjustable, extra soft double knee pads.

Four high-quality double casters, two of them with brakes, provide easy movement.

Electrically spreadable carrier frame.

Can also be used for showering the seat area.

Specially designed, high-quality lifting slings available in different sizes.
